

**Submit a challenge  
to the Federal  
Communications  
Commission's (FCC)  
National  
Broadband Map**

[fcc.gov/BroadbandData](https://fcc.gov/BroadbandData)

**The FCC's National Broadband Map is a dataset of all locations (or structures) in the U.S. where fixed broadband internet access service is or can be installed.**

## **WHAT CAN BE CHALLENGED?**

### **Locations**

- A broadband serviceable location (BSL) that is missing from the data
- Information is incorrect, such as the address, unit count or geographic coordinates for the location

### **Broadband availability**

- Broadband services and technologies (if any) listed for a location are incorrect
  - Available broadband service speeds listed for a location are incorrect
-
